Commissioner of Patents and Trademarks

The amendment filed 12/18/98 proposes amendments to the specification, claims, and drawings that do not comply with 37 CFR 1.121(b), which sets forth the manner of making amendments in reissue applications. See MPEP 1453. A supplemental paper correctly amending the reissue application is required. Also note that if the proposed drawing corrections had been filed correctly they would not be approved because descriptive matter is not permitted. The elements referenced by name should be referenced by reference numerals which appear in the specification
